

CANTEMO

BACK-END DEVELOPER

OPEN POSITION

We are two teams sharing a single space and company culture. Cantemo and iconik Media work side by side as a team of creative developers who are passionate about building intuitive media management software and solving complex problems for inspiring customers like Nike, Google, BBC, MGM, VICE, and other organizations who create media. On an average day, you will find an extremely diverse team using the latest technologies and methods at our office in Central Stockholm. Our people are helpful, humble, and ready to collaborate. At any given time, you'll find colleagues sharing ideas over coffee, taking a quick play break on the "Cruis'n Cantemo Arcade" or solving problems together in our conference room with a view. We believe this inspiring environment aids our people in exceptional work and makes great experiences a part of every day.

We have an **immediate** full-time job opening for a **Back-End Developer** to join our talented team in Stockholm. Here's **what we are looking** for in you:

- : Autonomous and passionate about solving complex problems.
- : Knowledge of REST API programming.
- : Understanding of software engineering and data modeling.
- : Fluent in English.
- : Python development experience.
- : Bachelor or Master's degree in a technical field (e.g. Computer Science, IT or similar).
- : Minimum of 3 years of relevant work experience.

BONUS QUALIFICATIONS

- : Django development experience.
- : HTML5 experience.
- : Video transcoding experience.
- : Advanced JavaScript development.
- : Knowledge of creative tools such as video editors & compositing software.
- : Understanding of SQL databases such as PostgreSQL.
- : Knowledge of developing in a Linux environment

WHAT YOU WILL BE DOING

- : Contribute to designing and implementing advanced video applications and workflows.
- : Working closely with our development team to design and further-develop the Cantemo REST API and back-end infrastructure.
- : Communicate closely and frequently with the front-end team and global partners developing Apps using the Cantemo API's ensuring a synergy with the backend development
- : Supporting global partners and customers in their development and usage of Cantemo Portal.

WHAT'S IN IT FOR YOU

- : Great freedom and flexibility in what you do and how you work.
- : Working closely hand-in-hand with the company management team.
- : Highly involved in influencing the product development.
- : Forming your career and gaining unique experience working with cutting-edge technology in a thrilling industry.
- : Travel around the world to meet inspiring customers and partners in the media industry.
- : Leading private health insurance available in Sweden.

OUR TECH STACK

- : Languages - Javascript, Python, Go, HTML, Objective C, C#
- : Infrastructure - PostgreSQL, Cassandra, Kubernetes, Elasticsearch, RabbitMQ
- : Tools - Jenkins, Git, Redmine, Phabricator, SaltStack
- : Operating Systems - Ubuntu, RedHat/CentOS, macOS, Windows

NOW IT GETS INTERESTING

We have customers all around the world that use our products. Some of them you may not have heard of, but there are quite a few we know you know. Every year brings new major brands. As they are continuously fed with new software releases, the chances are you will get to work with some big names.

Our customers are in every continent of the world, even Antarctica! This means that it is truly a multi-lingual and multi-cultural environment. It also means that as well as working with an ambitious, but easy-going international team, you may also get to travel to some far-flung places and meet some interesting people in the process.

OUR ETHOS

At Cantemo, we place a great deal of importance on our team. The work environment is collaborative and transparent – we mean it! We have a flat hierarchy and we allow people that work with us to focus on doing the things they enjoy and do best.

Essentially, our vision is based on the idea that autonomy, in combination with freedom and responsibility, breed innovation. We believe that when talented people work in a flexible and positively challenging environment in the midst of having fun, that's when the magic happens.
